

D.O. No. 49

Dated: 23.04.2021

Dear *Dr. D'cruz*

I have been assigned the overall responsibility of COVID Management in Government Medical College & Hospital, Sector-32 by the UT Administration Chandigarh. During a meeting on 20.04.2021, you suggested that to bring down the stress level of the COVID patients, we should arrange for a video call facility to each of the patient with their relatives. Further you also volunteered to make it functional initially in the COVID ward at the Sector-48 Hospital.

Your suggestion has been successfully implemented from yesterday and the same has got instant positive feedbacks. Today the local media has also given a wide positive coverage for this initiative which may further increase the faith of general public in the excellent medical care by the GMCH-32 during the ongoing crisis due to COVID-19 pandemic. Hon'ble Governor, Punjab and Administrator UT and other higher authorities have also appreciated the initiative of GMCH-32.

I would like to place on record my appreciation and am sure that this initiative will be replicated in other COVID wards (including ICU) in the GMCH-32 in next few days. I will also be posting this letter on our WhatsApp group to motivate others to take such good initiatives during this crisis.

With Regards

 *23/04/2021*

(Yashpal Garg, IAS)

In charge COVID Management
GMCH, Sector-32, Chandigarh

To,
Dr. Sanjay D'cruz
Professor &
Head of the Department of Medicine
