5.15 Extension in Time / Levies

5.16.1 The Superintending Engineer, CHB will be competent authority for grant of extension in time limit. The extension, in order to be binding, will have to be by the 'agreement' of the parties, express or implied. It, therefore, follows that if the extension of time is granted by the Superintending Engineer and such extension of time is accepted by the contractor, either expressly or implied by his action before and subsequent to the date of completion, the extension of time granted by the Superintending Engineer is valid. It is, therefore, necessary that the Superintending Engineer grants extension of time provisionally even when the contractor does not apply for extension of time in order to keep the contract alive, if the contractor refuses to act upon the extension granted by the Engineer-in-charge.

5.16.2 The recovery of liquidated damages for delayed performance, on account of which extension of time is granted, is a distinct matter and would depend on:

- (i) Prior notice as contemplated by Section 55 of the Contract Act, 1872.
- (ii) Fault/delay/hindrance being ascribable to the contractor, and
- (iii) Proof of the loss occasioned thereby (in case it is challenged by the contractor before the Arbitrator).

Conversely, a firm hired to provide consulting assignment/job for the prequalification or implementation of a project, and any of its affiliates, shall be disqualified from subsequently providing goods or works or assignment/job other than consulting assignment/job resulting from or directly related to the firm's consulting assignment/job. (ii) Conflicting assignment/job; A consultant (including its Personnel and Sub-Consultants) or any of its affiliates shall not be hired for any Assignment / job that, by its nature, may be in conflict with another Assignment/job of the Consultant to be executed for the same or for another Client. For example, a Consultant hired to prepare engineering design for an infrastructure project shall not be engaged to prepare an independent environmental assessment for the same project, and a Consultant assisting a Client in the privatization of public assets shall not purchase, nor advice purchasers of, such assets. Similarly, a Consultant hired to prepare Terms of Reference for an Assignment/Job should not be hired for the assignment/job in question.

(iii) Conflicting relationships; A Consultant (including its Personnel and Sub-Consultants) that has a business or family relationship with a member of the Client's staff who is directly or indirectly involved in any part of (i) the prequalification of the Terms of Reference of the assignment/job, (ii) the selection process for such assignment./job, or (iii) supervision of the Contract, may not be awarded a Contract, unless the conflict stemming from this relationship has been resolved in a manner acceptable to the Client throughout the selection process and the execution of the Contract.
