

The PH internal services i.e. G.P pipes & C.I pipes are passing through the proposed lift well. The applicant, therefore, may have to arrange the shifting of these services at an appropriate location/place at his own cost before taking up the installation of lift at proposed location.

EE-VI(PH)

Lifts can be provided in this category as far as structure aspect is concerned subject to shifting of services coming in the area of lift-turbines. Shop at second floor is required to be dismantled for lift and re-erected. Shop area for lift is to be done under the supervision and guidance of architect. Embanked by chd. Admin.

It has been observed that many electrical supply cables & telephone cables are passing along under the proposed lift well. The applicant may have to shift these services at his own cost from the current alignment. Further Spk of lift/well may be taken as per National Building Code (NBC)/specifications of CPWD for lifts.

**GROUND FLOOR PLAN**

Lift proposal is Architecturally O.K. However its location & any additional area be seen by T.P wing. *1406/24*

The lift can be accommodated within the CRB area/layout plan subject to structural stability, electrical, architectural aspects of area as available for need based requirements as no zoning is available.
