5. Additlons/alteratons carried out in the DU:-

| S.No. | Additlons/alteratons | Type of Structure(s) | Area of structure In Sq.ft. |
|-------|----------------------|----------------------|-----------------------------|
| (I)   |                      |                      |                             |
| (II)  |                      |                      |                             |
| (III) |                      |                      |                             |
| (IV)  |                      |                      |                             |
| (V)   |                      |                      |                             |
| (VI)  |                      |                      |                             |

(Separate sheet can be attached if the space for above table is insufficient)

The additions and alternations mentioned above, carried out by the allottee/transferee, were inspected by me. It is certified that the structure of the same is in accordance to the latest structural codal provisions. It is further certified that the above said additions/alteratons do not pose any risk to the structural safety of the existing structures i.e. the dwelling unit under consideration and the adjoining dwelling units.

OR

The above mentioned additions and alteratons are going to be carried out as per the structure design prepared by me. It is certified that the structure design is as per the latest structural codal provisions. It is further certified that the structure design has been done such that the additions and alteratons will not pose any risk to the structural safety of the existing structures i.e. the dwelling unit under consideration and the adjoining dwelling units.

(strike-off whichever is not applicable)

It is certified that my registration as Structural Engineer with Chandigarh Administration is valid as on date.

Signature of the Structural Engineer \_\_\_\_\_
